The Delaware Farm to School Program is an outgrowth of the Memorandum of Agreement (MOA) signed on March 5, 2010 by the secretaries of Agriculture, Education, and Health & Social Services in Delaware to promote Healthy Eating and Nutrition awareness in Delaware. The MOA created an Advisory Board with representatives from the Nemours, the farming community, the food processing sector, Federal Food Commodities Program, the State, as well as food and nutrition extension personnel, master gardener extension personnel, nutrition supervisors, and parents of school-aged children.
