Secretary of Agriculture offers condolences on the passing of Frank Perdue

Secretary of Agriculture, Michael Scuse made the following statement on learning of the passing of Frank Perdue.

“My personal condolences, and those of everyone close to Delaware agriculture, go out to the family of Frank Perdue. All of us were very sorry to hear of his death. Frank Perdue was a giant in his industry, a man who was responsible for much of the growth of the Delmarva poultry industry. In no small measure the current prominence of this industry, both here and around the world, is due to Frank’s commitment and enthusiasm. All of us in Delaware agriculture will miss Frank Perdue.”
